## 1. WHAT IS A STRATEGIC HOUSING LAND AVAILABILITY ASSESSMENT?

---

1.1 A Strategic Housing Land Availability Assessment (SHLAA) is a key element of providing a robust and reliable evidence base for the East Staffordshire Local Plan. The Government requires every local planning authority to prepare a SHLAA to ensure that sufficient land is made available to deliver housing to meet future needs. The primary role of the SHLAA is to;

- identify sites with potential for housing;
- assess their housing potential; and
- assess when they are likely to be developed

1.2 The National Planning Policy Framework, published in March 2012 specifically requires Local Planning Authorities to identify sufficient specific **deliverable** and **developable** sites to deliver housing throughout the Plan period. Footnote 11 and 12 on page 12 of the NPPF set out what are considered to be Deliverable and Developable sites;

Footnote 11 To be considered deliverable, sites should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years and in particular that development of the site is viable. Sites with planning permission should be considered deliverable until permission expires, unless there is clear evidence that schemes will not be implemented within five years, for example they will not be viable, there is no longer a demand for the type of units or sites have long term phasing plans.

Footnote 12 To be considered developable, sites should be in a suitable location for housing development and there should be a reasonable prospect that the site is available and could be viably developed at the point envisaged.

## 2. METHODOLOGY

---

2.1 The East Staffordshire SHLAA has been prepared in line with the Government's SHLAA Practice Guidance which was published by the Department for Communities and Local Government in 2007<sup>1</sup>. This sets out the primary role of the SHLAA, which is to:

---

<sup>1</sup> Strategic Housing Land Availability Assessments, Practice Guidance, Department for Communities and Local Government, July 2007. This is still valid as it was not revoked following the publication of the NPPF.

- **identify specific, deliverable sites for the first five years of a plan that are ready for development**, and to keep this topped up over-time in response to market information;
- **identify specific, developable sites for years 6–10**, and ideally years 11–15, in plans to enable the five year supply to be topped up;
- where it is not possible to identify specific sites for years 11–15 of the plan, **indicate**
- **broad locations for future growth**; and
- **not include an allowance for windfalls in the first 10 years of the plan** unless there are justifiable local circumstances that prevent specific sites being identified.

2.2 In addition, the Practice Guidance sets out the SHLAA core outputs and a process checklist to be used when undertaking a SHLAA:

## CORE OUTPUTS

<b>1</b>	A list of sites, cross-referenced to maps showing locations and boundaries of specific sites (and showing broad locations, where necessary)
<b>2</b>	Assessment of the deliverability/developability of each identified site (i.e. in terms of its suitability, availability and achievability) to determine when an identified site is realistically expected to be developed
<b>3</b>	Potential quantity of housing that could be delivered on each identified site or within each identified broad location (where necessary) or on windfall sites (where justified)
<b>4</b>	Constraints on the delivery of identified sites
<b>5</b>	Recommendations on how these constraints could be overcome and when

## PROCESS CHECKLIST

<b>1</b>	The survey and assessment should involve key stakeholders including house builders, social landlords, local property agents and local communities. Other relevant agencies may include the Housing Corporation and English Partnerships (a requirement in areas where they are particularly active)
<b>2</b>	The methods, assumptions, judgements and findings should be discussed and agreed upon throughout the process in an open and transparent way, and explained in the Assessment report. The report should include an explanation as to why particular sites or areas have been excluded from the Assessment

- 2.3 Importantly, the SHLAA itself does **not** make policy decisions on future housing allocations, **nor does it allocate** sites to specific land uses. Such policy decisions and allocations of land will be set out in East Staffordshire's emerging Local Plan.
- 2.4 However, the SHLAA does, through a robust assessment process, provide an indication of potential future housing land that could be delivered across the borough, including sites within and outside of existing settlements. The SHLAA will seek to identify as many potential housing sites as possible to ensure a comprehensive assessment process.
- 2.5 **The inclusion of a site within the SHLAA should not be taken to imply that they will be allocated for development, or that the Council will consider planning applications favourably.**

### 3. HOUSING REQUIREMENT FOR EAST STAFFORDSHIRE

---

- 3.1 The Borough Council commissioned Consultants GVA to update their Strategic Housing Market Assessment to identify a locally derived housing target and appropriate plan period. The figure of 8935 dwellings was identified and used as the basis for consultation in the Council's 'Preferred Option' Local Plan in the autumn of 2012. GVA have updated this revised housing figure to take account of 2011 census figures and more recent ONS census releases. This updated SHMA identifies a requirement of 11648 new dwellings. The GVA update is published on the Council's Planning Policy website and supports the publication of the Pre-submission Local Plan.
- 3.2 It is clear, given the difficulties associated with delivering brownfield development and the quantum of strategic brownfield sites available, that a proportion of this development will need to occur on greenfield sites.

### 4. SHLAA PROGRESS TO DATE

---

#### **PHASE 1**

- 4.1 In January 2007, East Staffordshire Borough Council (ESBC) commissioned consultants White Young Green to undertake a Housing Land Availability Assessment to replace the 2004 Urban Capacity Study. The study (Phase 1) was carried out in conformity with the Draft Practice Guidance "Housing Land Availability Assessments: Identifying Appropriate Land for Housing Development" published by ODPM in December 2005. This study considers the sources of capacity within the existing urban areas of Burton and Uttoxeter. The methodology used reflected the draft guidance that was in place at the time however, the study was limited to sites within the existing urban boundaries of the towns of Burton upon Trent and Uttoxeter and did not include the rural settlements in the Borough. This study identified 44 sites within Burton and Uttoxeter with a total yield of **3,525**.

#### **PHASE 2**

- 4.2 Further guidance was published by CLG in July 2007 (Strategic Housing Land Availability Assessments, Practice Guidance, Department for Communities and Local Government, July 2007), which extended the scope of housing land availability studies to include consideration of all possible sites within the borough including both urban and rural, greenfield and brownfield, and to identify constraints to their development.
- 4.3 As a result of this, ESBC carried out further work on its SHLAA that included a wider range of sites. This work (Phase 2) followed the standard methodology as set out in the CLG guidance. The Draft SHLAA of the Phase 2 work was then

published for consultation in April 2009. In Phase 2 a total of 104 sites were assessed, with a total site area of 1,460 ha, and yield of some 48,000. From the Phase II study, the total area of land considered developable over the next 15 years amounts to over 1,000 ha, with a potential yield of some **32,000** properties.

### **ANNUAL REVIEW 2010**

- 4.4 Following consultation on the Draft SHLAA, and analysis of the comments received, the Council considered that in order to ensure the document was a robust part of the Councils LDF evidence base, greater involvement of stakeholders was required, and further assessment about the deliverability of sites was also necessary as a result of changes to the economy. Having considered these issues, it was felt further work was necessary in a number of areas, and in line with the CLG guidance it was considered that to look at the SHLAA process from the beginning was the most appropriate way forwards. A SHLAA Panel was set up, and met in September 2009. At this meeting stakeholders were given information about the SHLAA to date, and involvement was sought in decisions relating to various aspects of the SHLAA. A revised SHLAA was published in May 2010, with a full revision of all sites from Phase 1 and 2 and incorporating the comments from the SHLAA panel.
- 4.5 The 2010 SHLAA identified 122 sites within the Borough, with a total yield of **17,449** units.

### **ANNUAL REVIEW 2011**

- 4.6 The Practice Guidance emphasises that the SHLAA is not a one-off study and should be continually updated. ESBC decided to update the SHLAA annually. All sites from the 2010 report were reviewed and any additional sites received by the Council in the period up to December 2010 were assessed and incorporated where necessary.
- 4.7 The 2011 SHLAA identified 133 sites within the Borough with a total yield of **20,876** units.

### **ANNUAL REVIEW 2012**

- 4.8 Following the Strategic Options consultation in August/September 2011, the responses brought a further tranche of sites to be added to the SHLAA through the awareness that a large consultation attracts. These have been added to the existing supply. Sites as late as May 2012 were included in this update. This took the total number of sites up to 144 with a total yield of **22028** units.
- 4.9 It was also felt that it was necessary to reconvene the SHLAA Panel to reassess the principles used to compile the SHLAA. Those that took part in the Panel meetings in 2009/10 were invited back but this was supplemented by representatives from South Derbyshire District Council, a national house builder

and additional agents and consultants to give a wider range of experience. The meeting concentrated on seeking consensus on the principles both for the SHLAA and the criteria to be used to assess sites for the Council's Sustainability Assessment. However, the Panel was keen to discuss and dissect the Council's Five Year supply – which although relevant to the SHLAA, is not entirely based on it and had been updated in March 2012.

- 4.10 The SHLAA Panel is made up of representatives from a number of local, regional and national organizations representing developers, agents, planning consultants, social housing providers and neighbouring Local authorities. Below is an attendance list of the last meeting in 2012:

<b>Name</b>	<b>Organization</b>
Paul Burton	Hallam Land
Phil Randle	Salloway
Philip Hickman	Rushton Hickman
Janet Hodson	JVH Planning Ltd
Tom Beavin	JVH Planning
Guy Longley	Pegasus Planning
Mark Sackett	Barton Wilmore
Oliver Taylor	Frampton Planning
David Bradshaw	Nurton Developments
Ian Romano	St Modwen Devts
Robert Wickham	Howard Sharp and Partners
Chris Jones	Trent and Dove
Jonathan Harbottle	Howard Sharp and Partners
Ian Willicombe	DPM (Nurton)
Peter Diffey	P Diffey Associates
Neil Arbon	DPDS
Annabel Rooksby	Peveril Homes
Russell Crow	South Derbyshire DC

- 4.11 Discussion at the SHLAA Panel meeting in April 2012 relating to the 'principles' used to identify deliverable and developable sites led to the Council circulating amended 'principles' for comment following the meeting. A single group response was received from the Panel. The comments received were largely based on the way in which the Council identified sites for inclusion in its Five year supply. However, the Panel agreed, following further consultation, that mirroring the footnote in the NPPF on page 12 was acceptable. This approach is not as rigid as the draft principles initially circulated following the meeting which took into account the Panels wish to make planning permission a prerequisite for a site to be included in the first five years.

### **ANNUAL REVIEW 2013**

- 4.12 Since May 2012 the Council has undertaken further consultation on the Local Plan in the form of the 'East Staffordshire Local Plan - Planning for Change - Preferred Option' document in July 2012. This consultation was focussed on identifying the

Council's preferred spatial strategy and locations for new housing and mixed use sites but also setting out a suite of strategic policies.

- 4.13 Eighteen sites have come forward for inclusion in the SHLAA since last year, primarily as a result of the Preferred Option consultation. These sites have been incorporated into the SHLAA supply where considered acceptable. It was also decided to remove sites included within the SHLAA that have been granted planning permission. It was not felt necessary to recall the SHLAA Panel this year as the principles used to assess sites were agreed with the Panel in 2012 and are considered NPPF compliant. The Council will recall the Panel in the light of new guidance or policy or in response to market signals.

### **Viability**

- 4.14 To supplement the previous year's SHLAA Panel principles the Council considered that it would be useful to undertake plan viability work during the summer of 2013, to support the emerging Local Plan, to seek a view of the viability of SHLAA sites. A discussion with a local Agent, Phil Randle Managing Partner of Salloway, Burton office regarding the viability of sites in general revealed that there was interest in both greenfield and brownfield development sites within and around Burton. His view was that, though all sites will have their own specific issues that may require mitigation measures that could have an impact on the viability of a particular site coming forward, the range of types of sites from 'greenfield rural' to 'brownfield urban' are all potentially viable given a realistic aspiration for development. In terms of mitigation measures, Burton has historically had few issues with heavy contamination which can lead to expensive remediation. Flood risk issues are more prevalent.
- 4.15 Whilst this is anecdotal evidence relating predominantly to Burton, this, along with some of the sites, for instance the former Computer Centre site on Shobnall Road, that have remained vacant for some time, are now beginning to come forward.

## 5. SHLAA RESULTS

---

- 5.1 As stated in the Methodology above, the Core Outputs of the SHLAA are to produce the following:
- A list of sites, cross-referenced to maps showing locations and boundaries of specific sites (and showing broad locations, where necessary)
  - Assessment of the deliverability/developability of each identified site (i.e. in terms of its suitability, availability and achievability) to determine when an identified site is realistically expected to be developed
  - Potential quantity of housing that could be delivered on each identified site or within each identified broad location (where necessary) or on windfall sites (where justified)
  - Constraints on the delivery of identified sites
  - Recommendations on how these constraints could be overcome and when
- 5.2 The results section of this document therefore includes the following in order to meet the above core outputs;
- 5.3 **Appendix A** includes the SHLAA table; this identifies each site included within the SHLAA, and provides the following information;
1. SHLAA reference number and the site address, the reference number corresponds with the SHLAA map included within this document.
  2. The size of the site, and its potential yield. (Note – this has been adjusted for overlapping sites, and sites which completely overlap with others will have a zero site area/yield)
  3. Information about whether a site is regarded as suitable, available and achievable, and whether it is deliverable or developable.
  4. A detailed housing trajectory – when each site is expected to come forward and what the delivery from a site would be per annum.
- 5.4 **Appendix B** provides a list of those sites that overlap. Where that is the case the yield of the smaller site has been adjusted to take this into account.
- 5.5 **Appendix C** includes a further table of those sites which have been submitted or identified and are no longer included within the SHLAA for various reasons (excluded sites). The background information for each of these sites has been retained, and these sites will be reviewed as the SHLAA is updated.
- 5.6 **Appendix D** includes the map of all sites (including their reference numbers)
- 5.7 In addition to this map, **Appendix E** includes a map of the housing trajectory and shows each site and when it could be developed based on the information in Appendix A and the trajectory.

5.8 **Appendix F** then includes the proformas of each of the included SHLAA sites, to provide the background information to the table in Appendix A.

## 6. PRINCIPLES

---

6.1 In arriving at these results, a number of assumptions were used, which had been derived following discussions with the SHLAA panel, these included the following points:

6.2 The first issue was that of the current market and that at the present time, brownfield sites were not considered to be viable. This was mentioned primarily in relation to a number of sites within Burton on Trent which currently are occupied by existing uses (mainly employment). As residential land values were felt to be below that of other uses, it would not be realistic in the short term at least to expect businesses to relocate or to sell sites to be used for residential development, as their existing value would be greater. As such in many cases (unless information had been provided to the contrary) a large number of brownfield sites were not able to be included within the first 10 years of the SHLAA housing trajectory, as these sites were not expected to come forward in the short term.

### **Deliverability and Developability**

6.3 In terms of assessing deliverability and developability, assumptions were made relating to the timeframe within which a site could be considered available for development. These broadly reflect the footnote on page 12 of the NPPF.

- Sites were considered to be deliverable, and capable of being included in the first 5 years land supply when demonstrated to be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing would be delivered on site within five years and, in particular that development on the site is viable.
- Landowners / agents were contacted in May 2012 to ensure that the SHLAA included the most up to date information available. Sites within the first ten years of the SHLAA were only included when it had been explicitly stated by landowners or agents that this was when they could be developed. However where information had been submitted by landowners, the question was asked if they had taken any steps towards submitting a planning application or contacting an agent/developer, when this was not the case it did not seem realistic to include these sites within the first five years.
- Also when a site was the subject of a recent planning permission, these sites were also regarded as being capable of being delivered within the first five years
- Where landowner information was available, but no response was obtained, or when it was not possible to contact the owner/agent, these sites were

automatically placed in the 11-15 years section, as it did not seem robust to include sites when information was out of date.

- If no landowner information had been provided or was not available, these sites were considered not currently developable, and placed in the 16 years and beyond category.

## Yield

6.4 In relation to yield on site, following discussion with the SHLAA panel in 2012, yield was agreed as being 30dph, again unless information was provided to the contrary, as due to the current market, much higher yields would be unrealistic as these would in many cases necessitate the building of apartments which are considered by the SHLAA Panel at the meeting in 2012 as simply not viable at the present time. As such this standard figure was used for the majority of sites. Indeed, in several cases the overall density is lower than 30 dph, following the removal of a minimum density in national guidance. It was suggested that net developable area could be used, being a more accurate guide, but this also has problems as unless the agent/developer has provided this detail in each case, disagreement could still occur. Given the Panel had formerly agreed 30dph the Council were comfortable continuing with this approach.

6.5 In addition to considering reasons for making assessments about each site, it was also important to consider reasons for excluding sites from the SHLAA. The reasons for removing sites were also based on the assumptions agreed with the SHLAA panel at the meetings held in autumn 2009. These were as follows;

- Yield below threshold – It was considered appropriate to restrict SHLAA sites to those sites with a yield of above 10 units of a site area of approx 0.33ha (As this would lead to a yield of 10 at 30dph). This was to ensure the project would be more manageable, having identified approximately 1900 sites prior to using these criteria.
- Built – As the SHLAA has incorporated sites from specific planning applications, and having identified sites from its monitoring data, it was not certain in many cases whether work had started on site or whether sites were complete. Upon visiting sites and based on officer knowledge in many cases sites were found to have been built, and as such excluded. Although the guidance does state that the SHLAA can include sites which are under construction, it was not considered feasible at this stage to include sites once work had been started on them, as records are not always available regarding the number of units completed on a site at any one time.
- Location unsuitable – These sites have been excluded as they are not located in or adjacent to settlements within the settlement hierarchy, and are in open countryside or a considerable distance from a settlement.
- Duplicate site – A number of sites were identified (mainly through the search of planning applications) or submitted by more than one person that were

duplicates with other sites. Where there is a considerable difference in the size or site boundary, both sites will have been retained (and the yield figures adjusted to take account of this). Although when boundaries were largely the same, one of the sites will have been removed from the SHLAA, with information retained to ensure the most accurate information about delivery could be utilised.

- Site to be retained for employment use – An Employment Land Review update, prepared by GVA has been commissioned and will be available on the Councils Planning Policy website. SHLAA sites have been cross-referenced with the list of sites to be retained in this emerging Employment Land Review and as such the Council considers that this document has sufficient weight to enable sites which have been identified for retention as an employment use to be excluded from the SHLAA or where part of a site falls within a site to be retained for employment, it has been recorded as a constraint and the yield adjusted accordingly.
- Site unsuitable - physical problems would prevent development – These sites were mainly excluded following discussion and agreement with the SHLAA Panel in 2010. A number of sites were discounted for example where topographical constraints, flooding, noise or other environmental conditions would require significant investment to remedy and the site would be unsuitable. Since 2010 sites with significant constraints have been excluded following this approach and no objection was made by the Panel in 2012.

6.6 Having determined which sites should be included within the SHLAA, and assessed those within the SHLAA based upon the assumptions listed above, the following results were obtained.

## 7. 2013 RESULTS

7.1 The results following the addition of the sites submitted during 2012/13 are as follows:

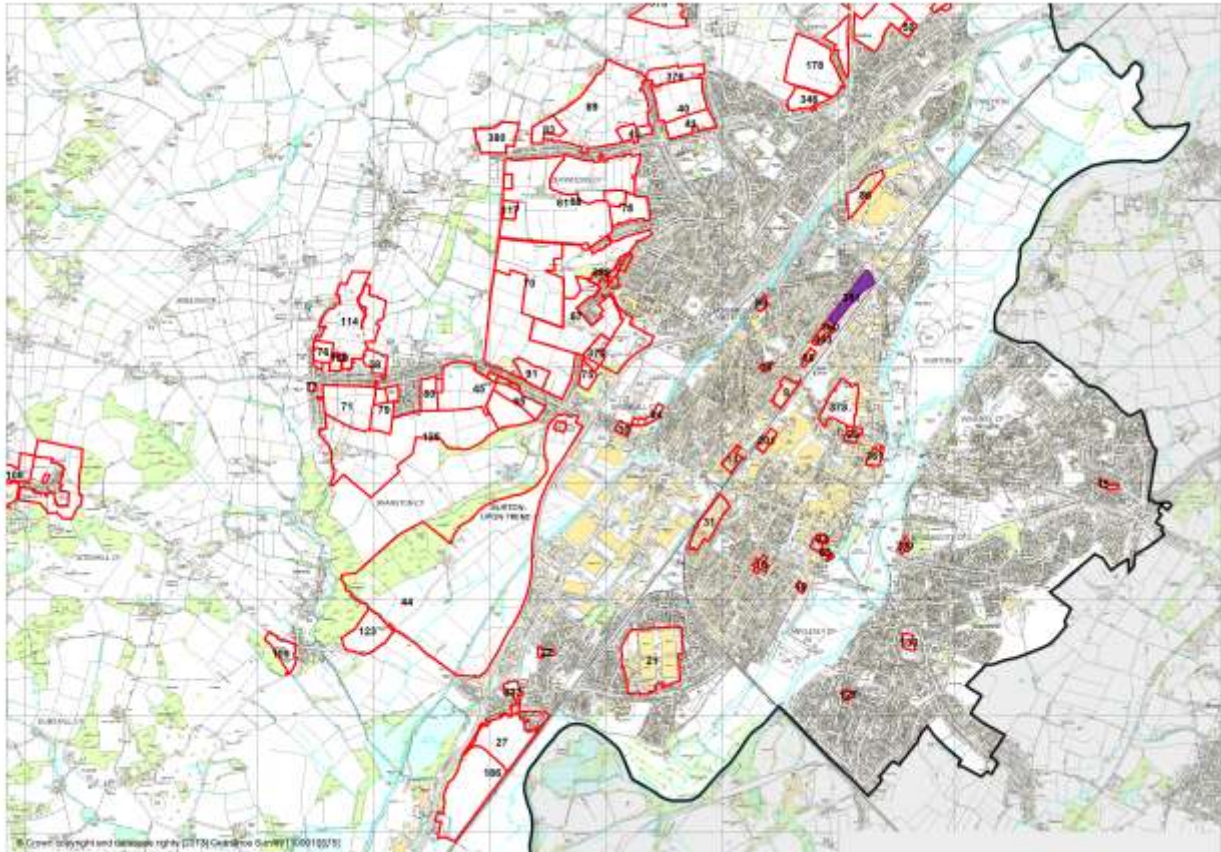

- The SHLAA identifies a total of 150 sites following the addition of new sites and the removal of 11 sites that have been removed due to gaining planning permission.
- The total site area included in the SHLAA is 1176ha, providing a total yield of 23385 (taking account of overlapping site areas). However only 17848 are considered developable.
- The SHLAA has identified 62 sites which are considered deliverable within the first 5 years of the plan. These sites have a total yield of 12,104. Although many of the larger sites will be built out over a number of years, and will not be 'complete' within the first five years, and therefore not all of these houses will be delivered within the first five years.
- The total yield expected to be delivered in the first five years is 4003.
- In terms of developable sites between years 6-15, the SHLAA has identified an additional 36 sites.
- The total yield of deliverable and developable sites between years 1-15 is 15272.
- An additional yield of 2576 has been identified as being delivered after 15 years.
- East Staffordshire's housing requirement, calculated using GVA's SHMA update of 2013, is 11648 covering the plan period from 2012 – 2031. See the Planning Policy pages or the latest position on [five year supply](#).
- The Council has identified the broad location of Derby Road as a potential location for residential development.
- The following table simplifies the results and demonstrates the yield per annum over the SHLAA period.

	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	15 +
	0	526	797	1314	1366	1589	1622	1663	1483	1245	1156	930	726	600	255	2576
Cumulative Total		526	1323	2637	4003	5592	7214	8877	10360	11605	12761	13691	14417	15017	15272	17848

7.2 The following section splits the results from each site into the various settlements within East Staffordshire. Namely Burton on Trent and Uttoxeter, followed by the villages within the borough, these will be split into category 1-3 villages as identified within the Settlement Hierarchy.

## 8. BURTON UPON TRENT

65 sites have been identified in Burton upon Trent; these are shown on the map below.

The following table identifies the sites within Burton

Site Ref	Address	Area	Yield
8	Derby Street	2.86	86
10	Shobnall Rd	1.02	31
13	Curzon Street	1.8	54
15	Vancouver Drive	0.65	20
16	Queen Street	1.2	36
18	Watson Street	0.49	15
21	Branston Depot	25.21	600
22	Lynwood Rd	0.72	22
23	Fleet Street	0.51	15
24	Bond Street	0.73	22
27	Hollyhock Lane	15.54	450
29	Horninglow Street Middle Yard	1.48	44

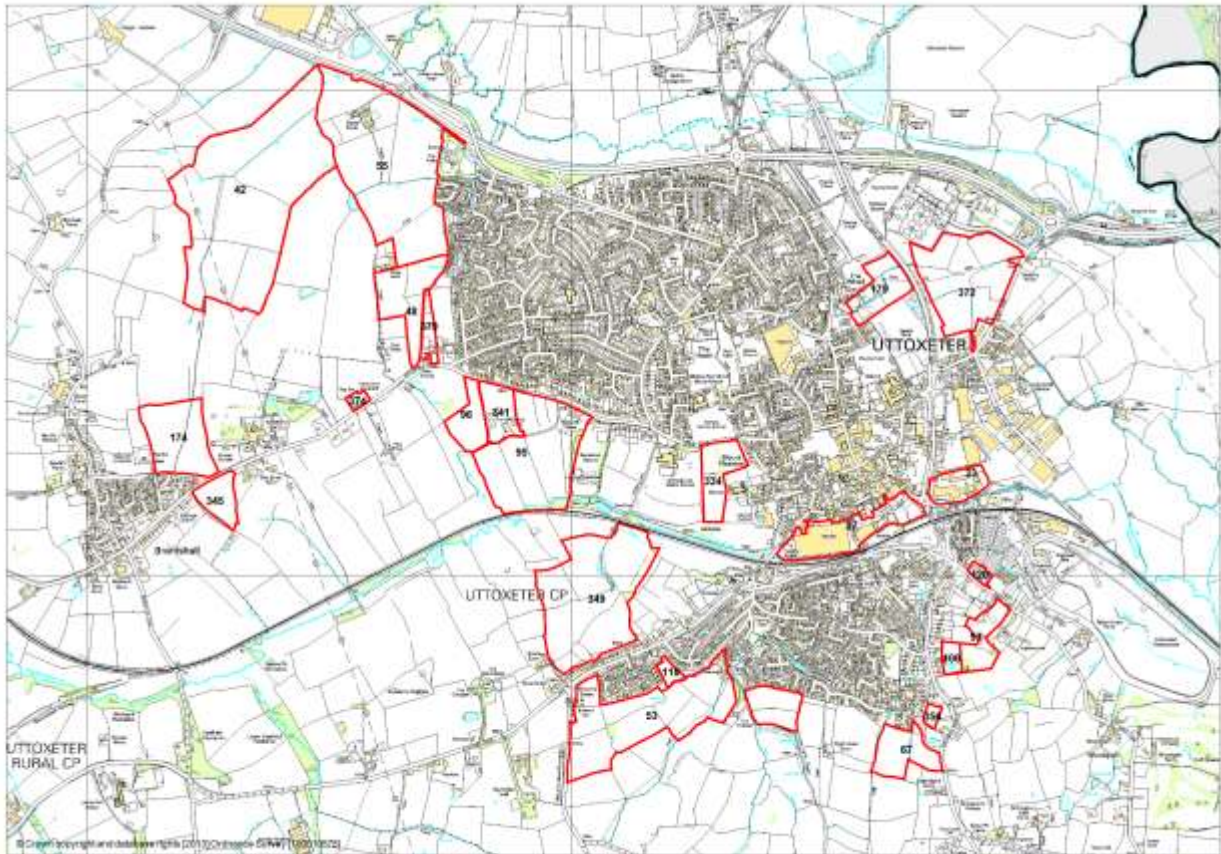

30	Dallow St/Victoria Rd	0.46	14
31	Crown Industrial Estate	6.32	190
38	Land Rear of the Homestead, Henhurst Hill, Burton upon Trent	3.16	40
40	Land Nth of Harehedge Lane, Burton	19.01	570
41	Land Nth of Harehedge Lane, Burton	6.15	185
44	Land West of the A38 (Lawns Farm)	164.8	2500
45	Land South of Henhurst Hill/Forest Rd	17.19	516
49	Land North of Beamhill Road, Burton	3.03	91
50	Land at St Mary's Lane, Stretton	1.28	38
52	Land at Dovecliffe Rd (26 Dovecliffe Rd) Stretton	2.28	68
61	Upper Outwoods Farm, Beamhill Rd, Anslow	52.06	850
62	Outwoods Hospital Site (Part 2), Burton	1.11	33
63	Land at Bond Street and Green Street, Burton	0.41	12
65	Land Rear of Forest Road (North) Burton	4.75	143
68	Land South of Beamhill Road, Burton	81.07	850
69	Land North of Beamhill Road, West of Tutbury Road, Burton	45.35	680
70	Land South of Field Lane	28	840
71	Land south of Henhurst Hill/Postern Rd	14.25	428
75	Reservoir Road, Burton upon Trent	2.37	71
76	Hopley Road, Burton upon Trent	2.84	85
77	Postern Road, Burton upon Trent	0.36	10
78	Kitling Greaves Lane, Burton upon Trent	8.44	253
79	Henhurst Ridge, Burton upon Trent	5.72	172
80	Aviation Lane, Burton upon Trent	3.94	118
83	Land North of Beamhill Road, East of Longhedge Lane, Burton	3.81	114
86	Beech Lane, Stretton	5.09	300
87	Redhouse Farm, Burton upon Trent	23.3	699
88	Little Burton East, Derby Road, Burton upon Trent	0.89	27
91	Land North of Forest Road, Burton upon Trent	4.11	123
94	Shobnall Sports and Social Club, Burton upon Trent	1.67	50
99	Old Citroen Garage, Horninglow Road, Burton on Trent	0.81	24
103	Five Lands Allotments, Stapenhill	1.24	37
107	Land North of Forest Road, South of Field Land and East of Outwoods Lane	127.5	1912
114	Land east of Hopley Road between Henhurst Hill and Anslow	31	930
117	Land at Outwoods Lane, Burton upon Trent	2.7	81
125	Land at Henhurst Hill, Burton upon Trent	107.6	1605
127	Short Street Community Infants School, Stapenhill, Burton upon Trent	0.5	15
150	Leyfields Farm, Henhurst Hill, Burton upon Trent	0.45	14
178	Land North of Stretton, Burton upon Trent	33.53	336
186	Land South of Main Street Branston	43.39	450
201	107 Station Street, Burton, DE14 1BX	1.55	74

230	Rider House, Stapenhill Road, Burton upon Trent	0.67	67
278	20-24 Dovecliff Road, Stretton	0.39	12
337	Manor Farm, Court Farm Lane / Main Road	1.7	51
343	Land at Derby Road, Graham Fletcher Coaches	0.39	11
346	Land at Bitham Lane, Stretton	4.46	134
359	Land at Derby Road (Tile store, Kwik Fit and adjacent land)	0.97	29
360	Land at Derby Road, Rykneld Metals	0.45	13
361	Former Bargates and Meadowside Centre Car park	2.81	100
368	Land South of Forest Road, Burton	7.51	225
373	Reservoir adjacent to Reservoir Road, Burton	3.66	109
376	Tutbury Road - Extended allocation	5.94	178
378	Coors - Middle Yard, Hawkins Lane	8.5	250
380	Land North of Beamhill Road	7.39	221.7
381	Derby Road, Burton	4.39	131.7

## 8. UTTOXETER

16 sites have been identified in Uttoxeter; these are shown on the map below.

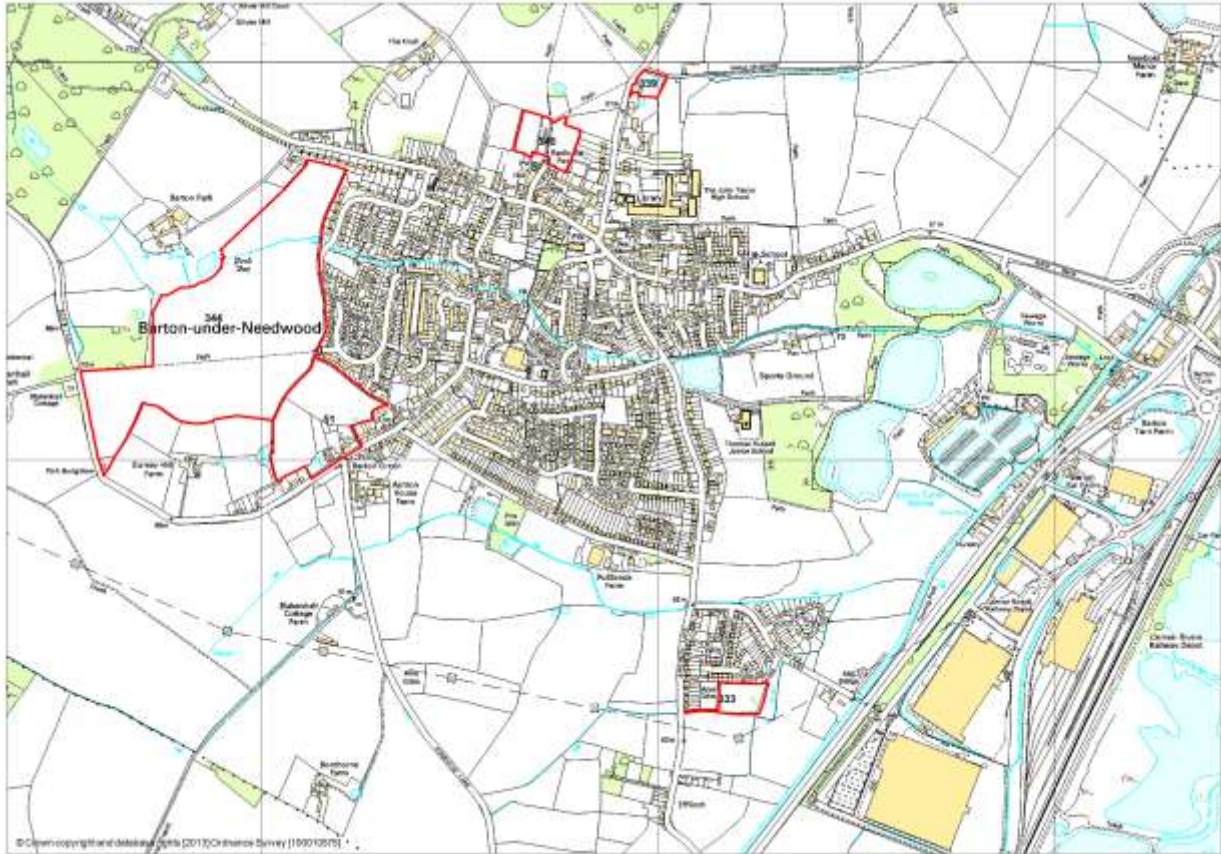

Site Ref	Address	Area	Yield
32	JCB Sites	6.76	257
33	Brookside Rd Uttoxeter	2.8	84
42	Land West of Uttoxeter (Parks Fm)	64.62	410
48	Land off Bramshall Road, Uttoxeter	6.08	182
53	Land at Hazelwalls Farm, (off B5013), Uttoxeter	19.7	591
55	Land West of Uttoxeter (Parks Fm)	27.38	410
67	Land South of Demontfort Way	4.11	123
95	Land South of Bramshall Road, inc Ryecroft Farm, Uttoxeter	15.3	459
96	Land South of Bramshall Road, adj. Ryecroft Lodge, Uttoxeter	3	90
97	Land south of Wood Lane, Uttoxeter	4	120
100	Land East of Highwood Road, Uttoxeter	0.96	29
118	Land at the rear of 61 Stafford Road, Uttoxeter	0.71	21
120	Land off Wood Lane, Uttoxeter Racecourse	0.52	16
179	Land West of Dove Way, Uttoxeter	4.04	121

334	Land at Stone Road, Uttoxeter	3.96	119
341	Roycroft Lodge, Uttoxeter	3.1	93
349	Blounts Green Farm, Stafford Road, Uttoxeter	19.38	435
356	Land North of DeMontfort Way, Uttoxeter	0.5	15
372	Derby Road, Uttoxeter	12.79	150
379	Land to the West of Uttoxeter	1.35	40.5

## 9. CATEGORY 1 VILLAGES

### BARTON UNDER NEEDWOOD

Site Ref	Address	Area	Yield
51	Land to the North West of Barton under Needwood	5.1	153
333	Land at Hardy Close, Barton under Needwood	0.89	22
339	Land at Dunstall Road, Barton under Needwood	0.41	12
340	Land at Radhurst, Barton under Needwood	1.5	25
344	Barton Park Farm, Barton under Needwood	21.7	250

# ROCESTER

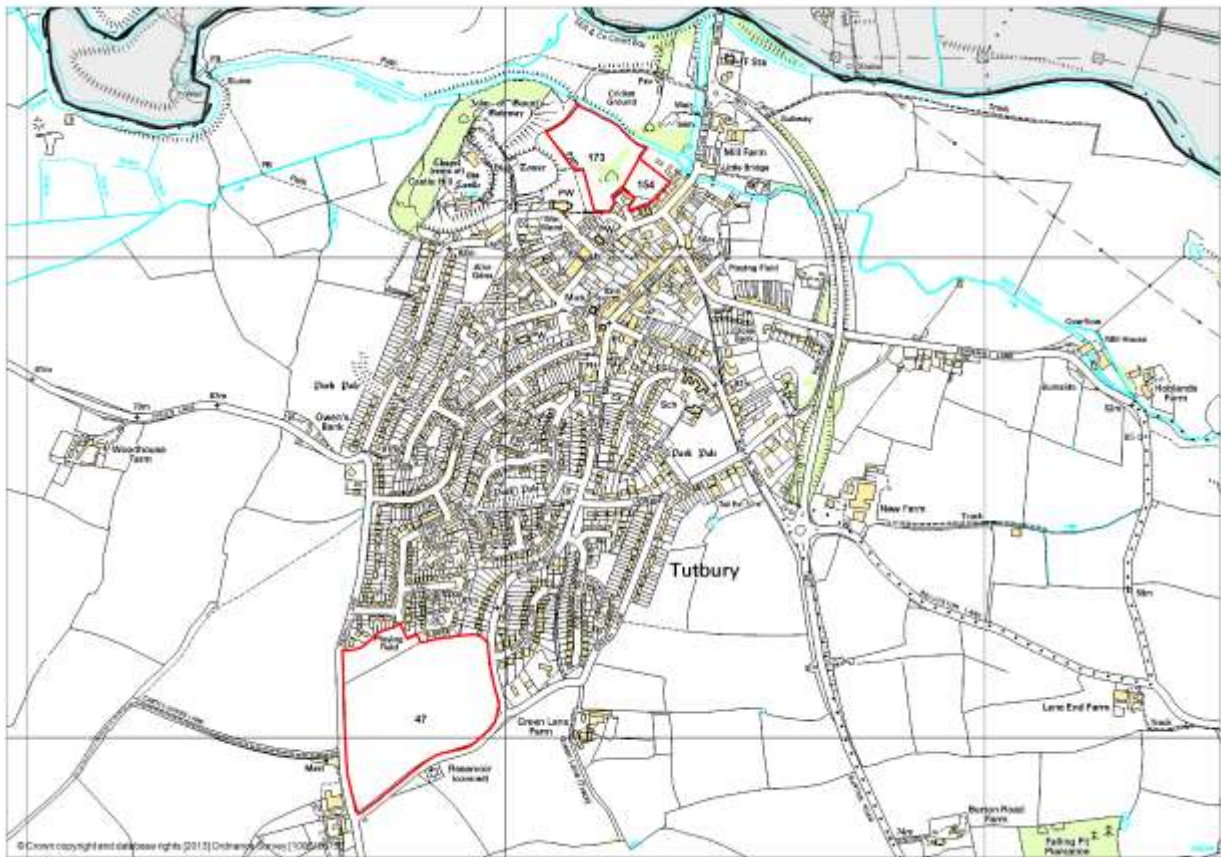

Site Ref	Address	Area	Yield
74	Land off Northfield Avenue, Rocester	2.26	68
110	The Beeches and Land Adjacent Mill Street, Rocester	2.6	78
112	Land at Main Street, Rocester	4.1	123
124	Land at Eyes Farm, Rocester	0.53	16

## ROLLESTON ON DOVE

Site Ref	Address	Area	Yield
66	Land at Rolleston on Dove	6.02	120
73	Land at Craythorne Road, Rolleston on Dove	1.23	37
98	Land off Meadow View, Rolleston on Dove	1.21	36
122	Land at Craythorne Road/ Beacon Road, Rolleston on Dove	3.4	102
159	Land South of Walford Road, Rolleston on Dove	7.53	226
182	Land North of Station Road, Rolleston on Dove	2.03	61
338	Land at Knowles Hill, Rolleston on Dove	0.51	15
375	Knowles Hill, Rolleston	10.85	325

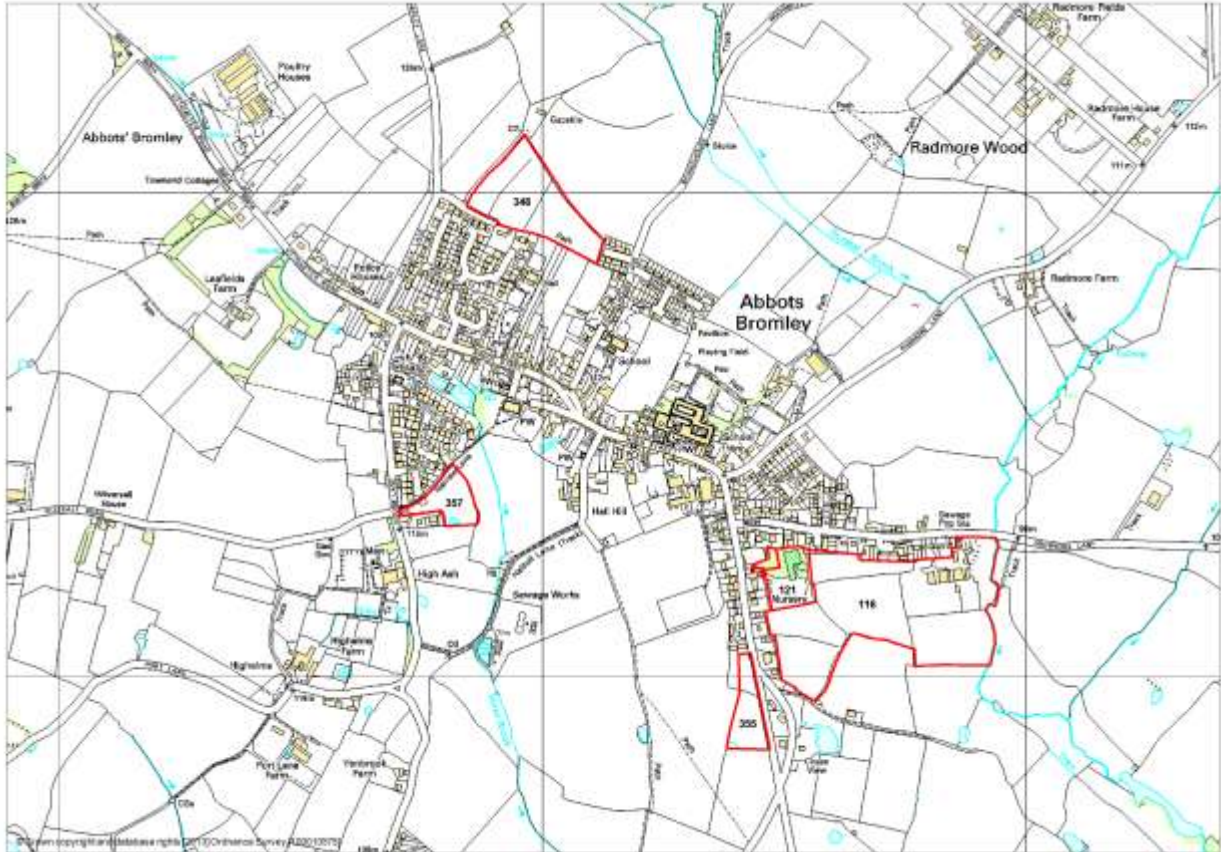

## TUTBURY

Site Ref	Address	Area	Yield
47	Land at Belmont Road, Tutbury	8.5	255
154	Land at Manor Farm, Tutbury	0.56	17
173	Land adjacent to Manor Farm Tutbury	2.3	69

## 10. CATEGORY 2 VILLAGES

### ABBOTS BROMLEY

Site Ref	Address	Area	Yield
116	Land at Ashbrook Lane, Abbots Bromley	10.6	318
121	Land at Woodland Barn Nurseries, Abbots Bromley	1.01	30
348	Land at Bagots View, Abbots Bromley	3.15	95
355	Land south of Thyme House, Lichfield Road, Abbots Bromley	1.05	31.5
357	Land off Goose Lane, Abbots Bromley	1.01	20

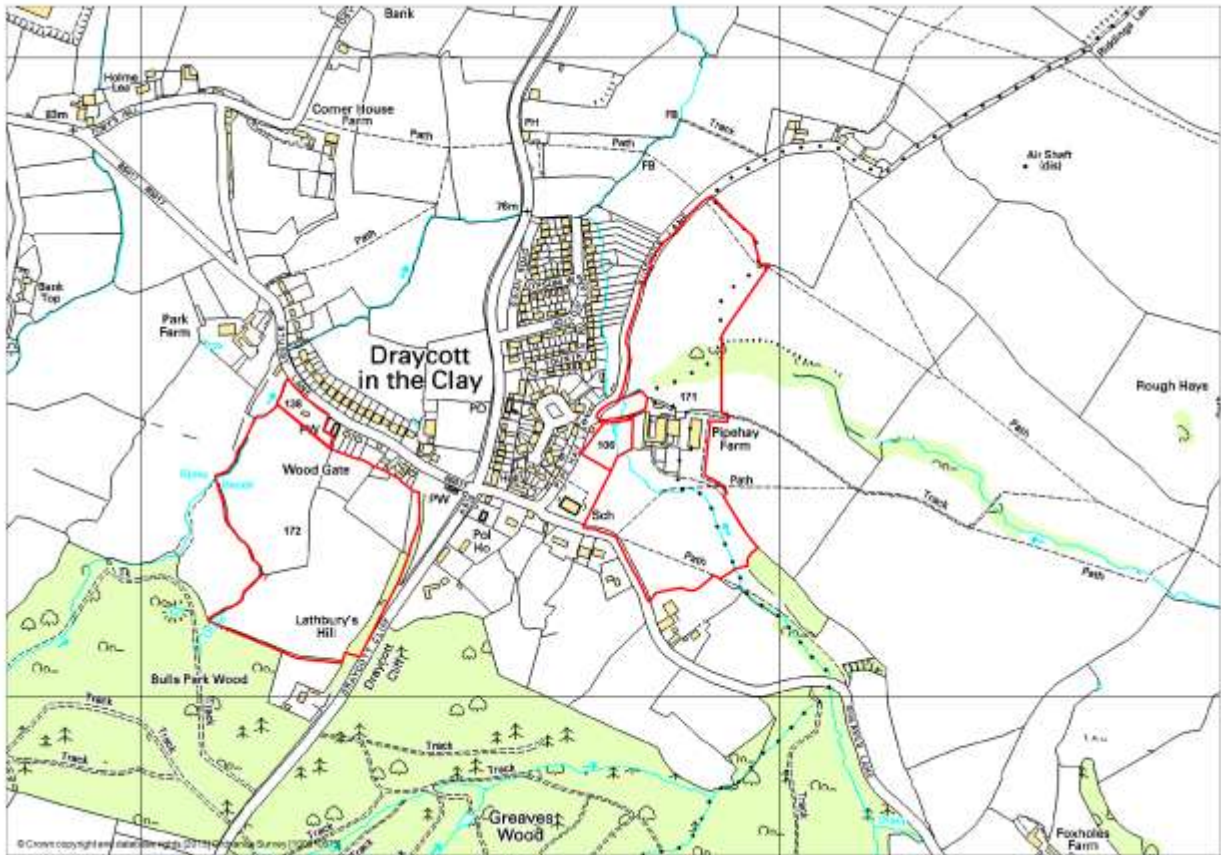

# DENSTONE

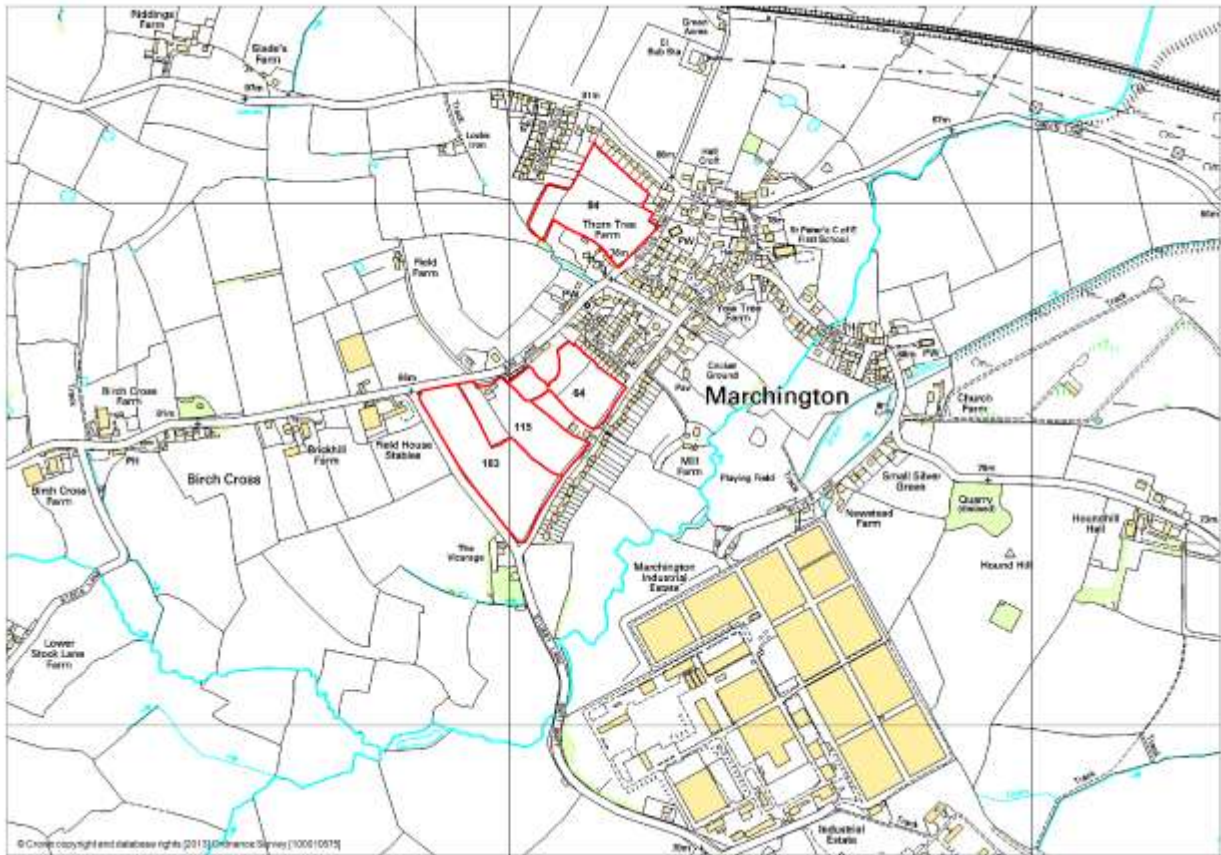

Site Ref	Address	Area	Yield
175	Land at Oak Road, Denstone	3.47	52
369	Land at The Croft, College Road, Denstone	1.24	37
370	Land to the South of Denstone	1.5	45

## DRAYCOTT IN THE CLAY

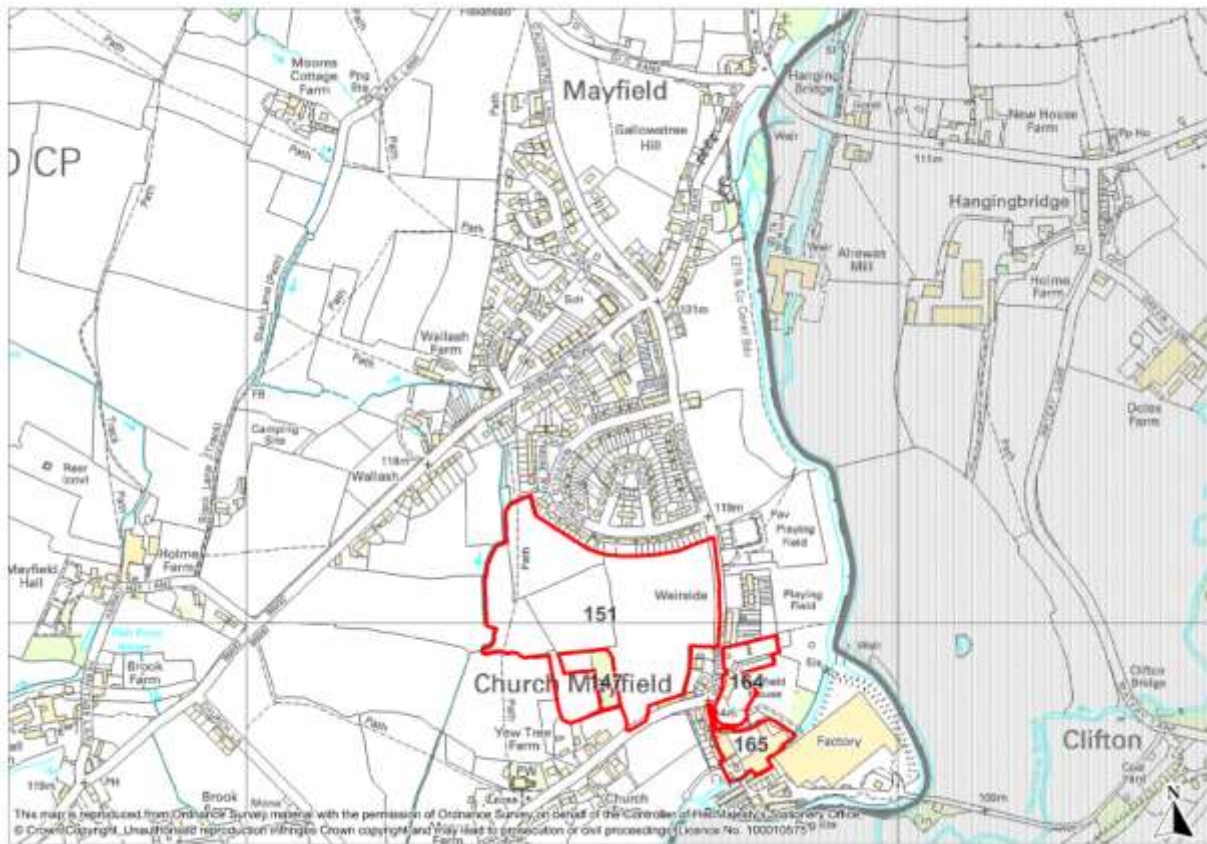

Site Ref	Address	Area	Yield
106	Land at Pipehays Lane, Draycott in the Clay	0.59	18
138	Land at Stubby Lane, Draycott in the Clay	0.36	11
171	Land East of Draycott-in-the-Clay	9.98	299
172	Land West of Draycott-in-the-Clay	8.49	255

# MARCHINGTON

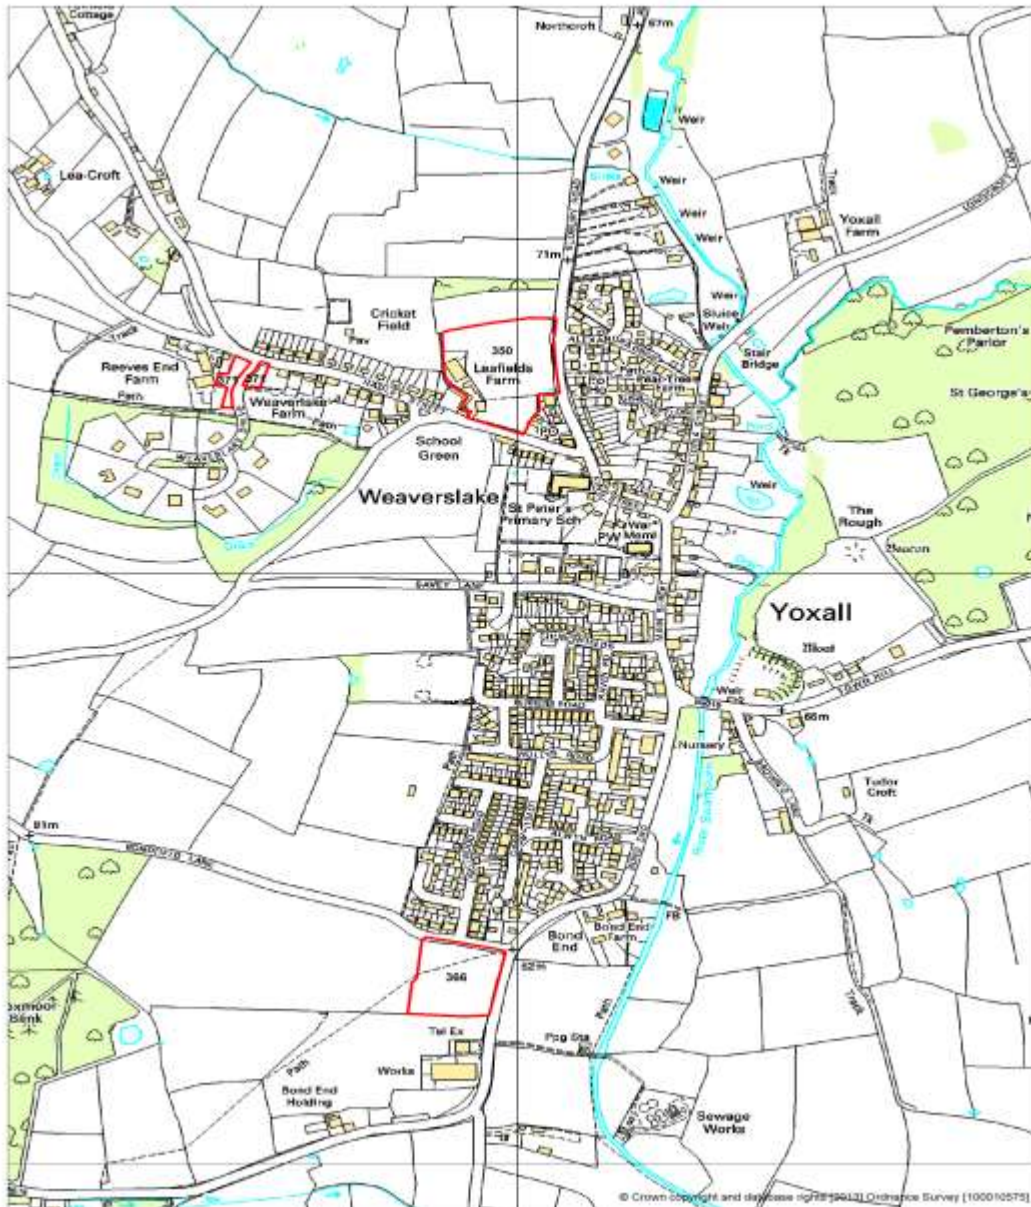

Site Ref	Address	Area	Yield
64	Jacks Lane, Marchington	1.61	48
84	Land at Allens Lane, Marchington	2.8	84
115	Land between Bag Lane and Jacks Lane, Marchington	2.05	62
183	Land along the B5017, Marchington	3.13	94

## MAYFIELD

Site Ref	Address	Area	Yield
147	Land adjoining the Vicarage, Mayfield, Staffordshire	0.34	10
151	Land off Coneygree Lane, Church Mayfield, Staffordshire	7.54	226
164	Mayfield House, Mayfield, Ashbourne	0.71	21
165	Mayfield Yarns Yard, Mayfield, Ashbourne	0.76	23

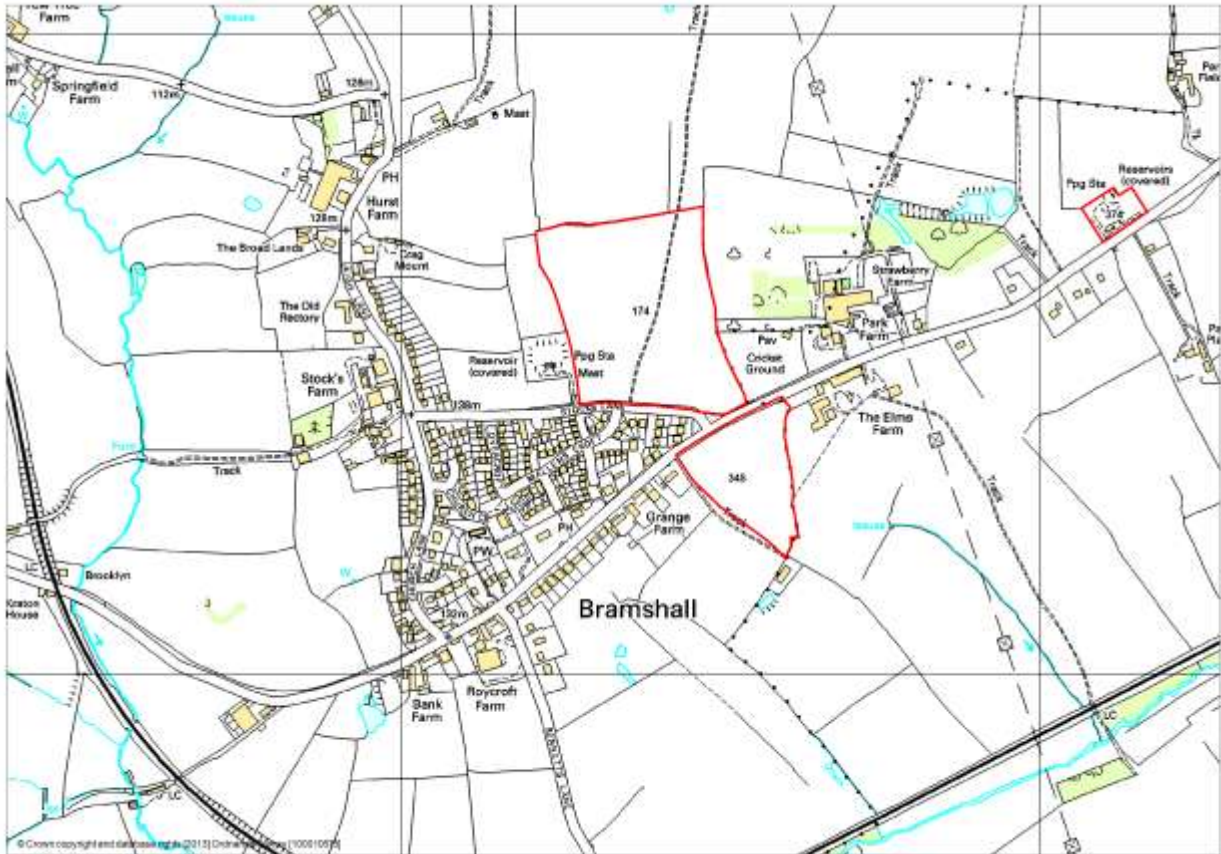

# YOXALL

Site Ref	Address	Area	Yield
350	Site West of Sudbury Road, Yoxall	4.36	131
366	Land off Bondfield Lane, Yoxall	1.41	42
371	Land adjacent to Weaverlake Drive, Yoxall	0.3	9

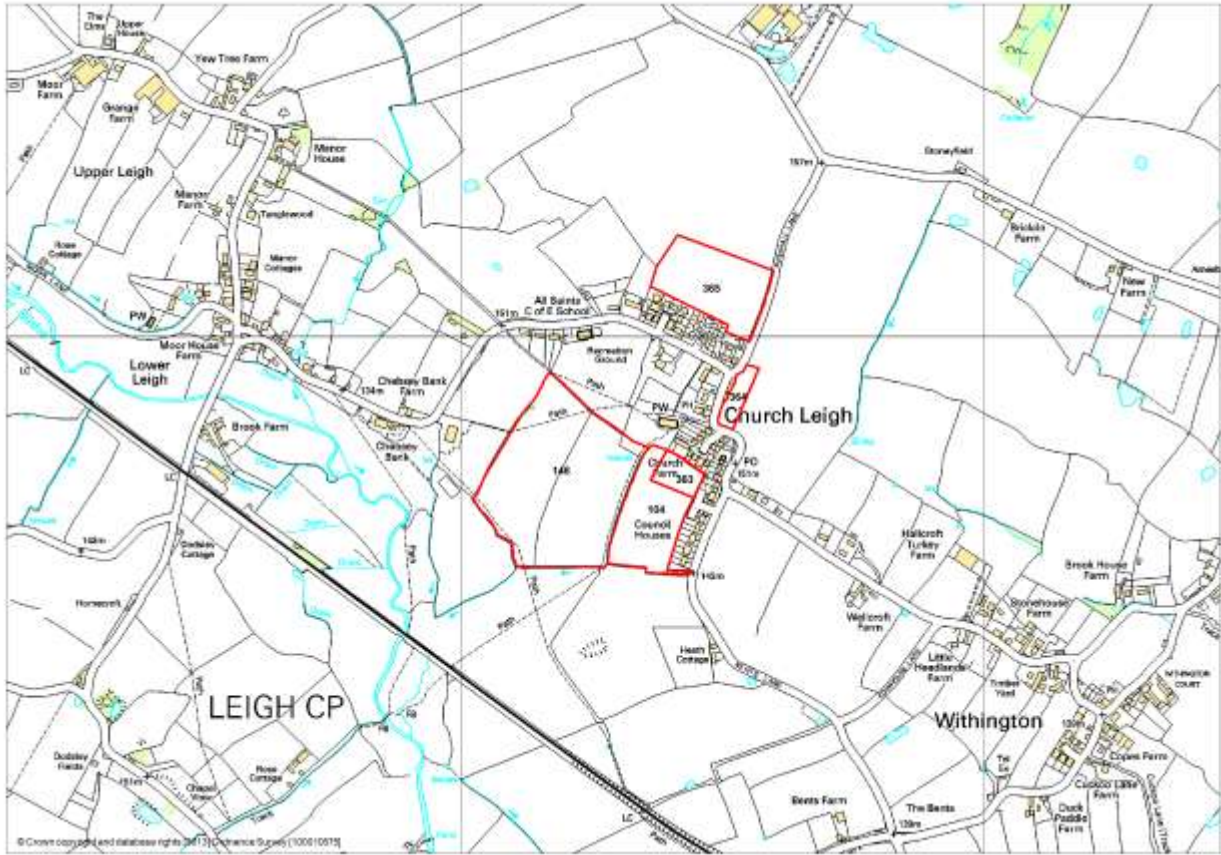

## 11. CATEGORY 3 VILLAGES

### BRAMSHALL

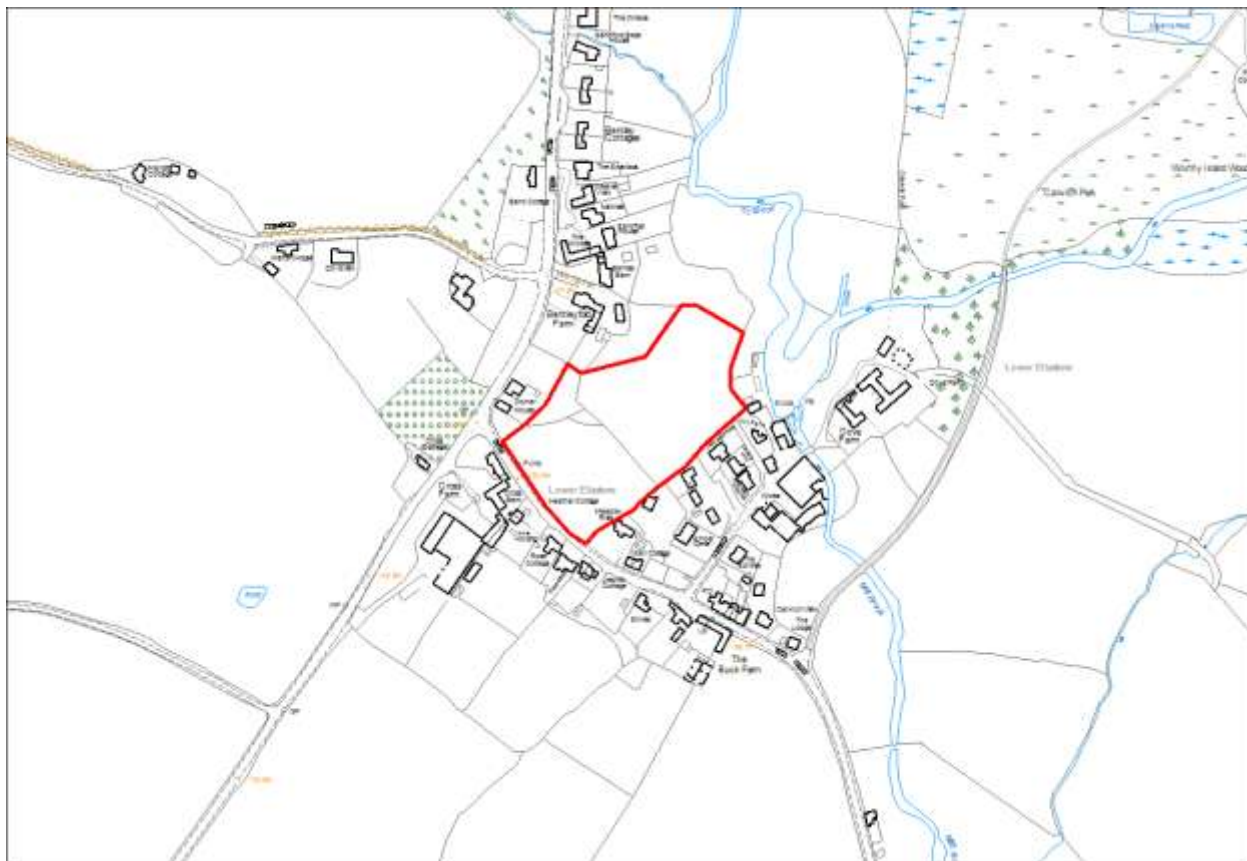

Site Ref	Address	Area	Yield
174	Land at Bramshall, Uttoxeter	7.31	219
345	Land along Bramshall Road, Bramshall	2.56	76.8
374	Covered (Redundant) Reservoir, Bramshall Road	0.48	14

# CHURCH LEIGH

Site Ref	Address	Area	Yield
104	Land South East of Church Leigh	2.73	82
146	Land adjacent to All Saints Church, Leigh, Staffordshire	7.52	226
363	Land to the South East of Church Leigh	0.51	10
364	Land off Park Hall Road, Church Leigh	0.41	10
365	Land to the North of Church Leigh	2.63	40

## ELLASTONE

Site Ref	Address	Area	Yield
367	Land off Dove Street, Ellastone	1.67 ha	50

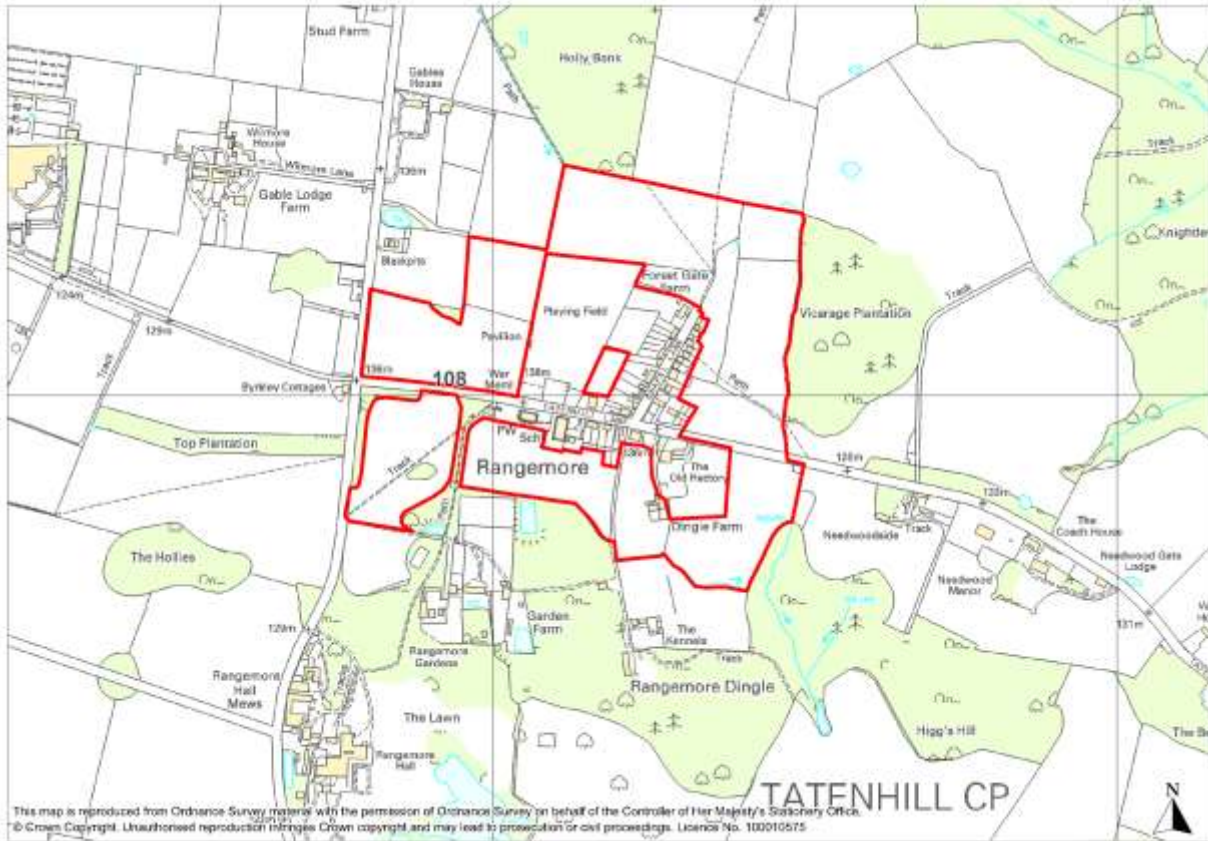

## KINGSTONE

Site Ref	Address	Area	Yield
156	Land adjacent to Council Houses, Kingstone, Uttoxeter	2.4	72
157	Land adjacent to Cherry Trees, Kingstone, Uttoxeter	0.89	27
158	Land along Potts Lane, Kingstone, Uttoxeter	3.22	97

# RANGEMORE

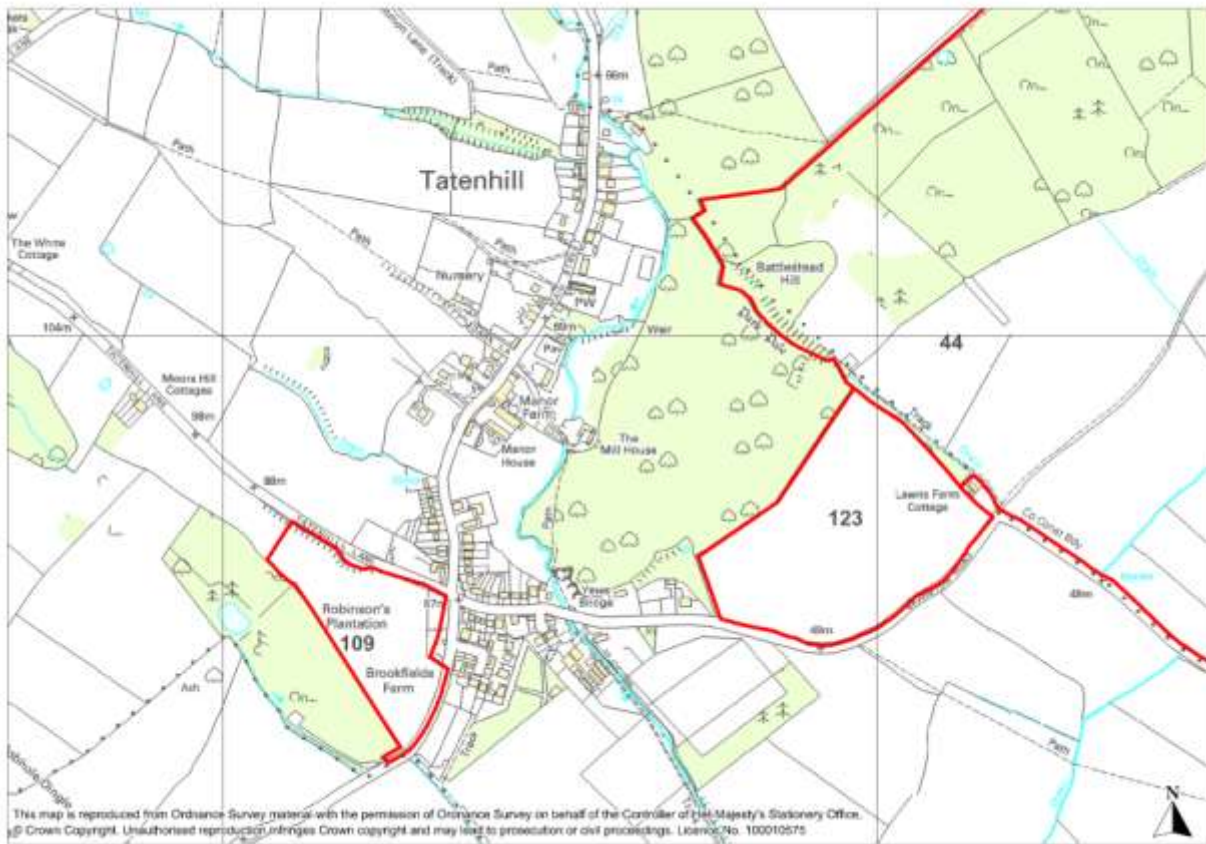

Site Ref	Address	Area	Yield
108	Land at Rangemore	23.92	718

# STUBWOOD

Site Ref	Address	Area	Yield
160	Land at Stubwood, Uttoxeter	0.46	14

## TATENHILL

Site Ref	Address	Area	Yield
109	Land at Tatenhill	4.36	131
123	Land fronting Branston Road, Tatenhill	9.6	288

## 12. CONCLUSION

12.1 The Council’s SHLAA has identified a total of 150 sites within the Borough. All of these sites have a potential yield of over ten units. Whilst this document makes judgements about the suitability of sites, and their deliverability, these judgements in no way indicate that a site will actually come forward for housing development, nor that it would receive planning permission should it be applied for. As such, within the proformas in Appendix E the Council has included information about existing local plan policy. This however is additional information, and has not been used to assess whether or not a site is suitable.

**SHLAA Stats:**

Total number of dwellings in SHLAA	23385 (of which 17,848 are deliverable or developable)
0 – 5 years	4,003
6 – 10 years	7,602
11 – 15 years	3,667
15+	2,576
Number of sites added this year	18
Potential yield (of this year’s sites)	1,955
Number of sites removed (received Planning Permission/deleted)	11 (one site granted consent for educational use)
Yield	708

12.2 Of the sites identified, the Council has identified 62 deliverable sites, that is, sites which could (if planning permission were granted) come forwards for housing development and be delivered within the first five years (2013-2018). On some of the larger sites however, delivery would take place over more than five years, these first five years of deliverable sites includes sites where there would be some units delivered within this period.

12.3 In addition, there are 36 developable sites, which are in a suitable location for development, there is a reasonable prospect that it will be available and it could be developed at a point in time. The sites included within this period are sites where there are less definite plans for delivery on a site, or where ownership issues or other factors will prevent sites being delivered earlier.

12.4 This year the Council transferred sites that have received planning permission from the SHLAA to its list of commitments. This included 10 sites with a total yield of 708 dwellings. The Council’s list of commitments makes up part of its five year land supply. A further 1025 dwellings are identified from pipeline sites that are identified in the SHLAA and expected to gain consent in time to deliver completions within five years.

12.5 Of the sites within the SHLAA, 75% of them are on Greenfield land, and 25% are Brownfield sites.

12.5 The location of these sites can be seen on the map in Appendix D, which shows sites in relation to where they fall within the housing trajectory.

## APPENDIX A – SHLAA TABLE

---

See separate file

## APPENDIX B – OVERLAPPING SITES

SHLAA Reference	Site Address	Overlap?
186	Land South of Main Street Branston	Yes - site completely includes number 27
27	Hollyhock Lane	Yes - site completely included in site 186
40	Land Nth of Harehedge Lane, Burton	Yes - includes all of site number 41
41	Land Nth of Harehedge Lane, Burton	Yes - site completely included in site number 40
42	Land West of Uttoxeter (Parks Fm)	Yes - site includes all of site number 55
55	Land West of Uttoxeter (Parks Fm)	Yes - site completely included in 42
125	Land at Henhurst Hill, Burton upon Trent	Yes - site includes all of site 71, 80, and 65, and part of 79, and majority of site 45
45	Land South of Henhurst Hill/Forest Rd	Yes - majority of site is included within site 125
65	Land Rear of Forest Road (North) Burton	Yes - site is completely included within site 125
71	Land south of Henhurst Hill/Postern Rd	Yes - site is completely included in site 125
79	Henhurst Ridge, Burton upon Trent	Yes - part of site is included within site 125
80	Aviation Lane, Burton upon Trent	Yes - site is completely included in site 125
69	Land North of Beamhill Road, West of Tutbury Road, Burton	Yes - site includes all of site number 49 and 83
49	Land North of Beamhill Road, Burton	Yes - site completely included in 69
83	Land North of Beamhill Road, East of Longhedge Lane, Burton	Yes - site completely included in 69
68	Land South of Beamhill Road, Burton	Yes - site includes all of site number 61 and 117 and 78
61	Upper Outwoods Farm, Beamhill Rd, Anslow	Yes - Site is completely included in site 68. Site overlaps with number

SHLAA Reference	Site Address	Overlap?
		78
78	Kitling Greaves Lane, Burton upon Trent	Yes - site is included in site number 68. Site overlaps with 61.
117	Land at Outwoods Lane, Burton upon Trent	Yes - Site is completely included in site 68
107	Land North of Forest Road, South of Field Land and East of Outwoods Lane	Yes - site includes all of sites 70, 87, and 91
70	Land South of Field Lane	Yes - site is completely included in 107
87	Redhouse Farm, Burton upon Trent	Yes - site is completely included in 107
91	Land North of Forest Road, Burton upon Trent	Yes - site is completely included in 107
114	Land east of Hopley Road between Henhurst Hill and Anslow	Yes - site includes all of site 76
76	Hopley Road, Burton upon Trent	Yes - site is completely included within site 114
94	Shobnall Sports and Social Club, Burton	Yes - site overlaps with site 298
298	Land off Shobnall Road, Burton	Yes - site overlaps with site 94
97	Land south of Wood Lane, Uttoxeter	Yes - includes all of site number 100
100	Land East of Highwood Road, Uttoxeter	Yes - site completely included within number 97
170	Land West of Newborough	Yes - some overlap with site number 105
105	Land at Hollybush Road, Newborough	Yes - some overlap with site number 170
171	Land East of Draycott-in-the-Clay	Yes - includes all of site number 106
106	Land at Pipehays Lane, Draycott in the Clay	Yes - site completely included within number 171
116	Land at Ashbrook Lane, Abbots Bromley	Yes - site includes all of site 121
121	Land at Woodland Barn Nurseries, Abbots Bromley	Yes - site completely included in 116

## APPENDIX C - EXCLUDED SITES

SHLAA Ref	Previous Reference	Address	Reason for Exclusion
2	Phase I 6	Rolleston Road	Yield below threshold
3	Phase I 9	Wetmore	Site to be retained for employment use
4	Phase I 10	Wetmore Rd	Site to be retained for employment use
6	Phase I 14	Arthur Street	Site to be retained for employment use
7	Phase I 15	Victoria Crescent	Site to be retained for employment use
9	Phase I 20	Station Street	Duplicate Site
11	Phase I 21	Shobnall Rd	Duplicate Site
12	Phase I 23	Shobnall Rd (Waste Site)	Site to be retained for employment use
14	Phase I 28	Scalpcliffe Close	Site unsuitable - physical problems would prevent development
17	Phase I 33	Broadway Street	Yield below threshold
19	Phase I 35	Blackpool Street	Yield below threshold
25	Phase I 41	Manor Farm	Duplicate Site
28	Phase I 44	Lichfield Road	Location unsuitable
34	Phase I 101	Eastfields Rd Uttoxeter	Site unsuitable - physical problems would prevent development
35	Phase I 53	All Saints Road	Yield below threshold

Summary			
Deliverable?		Developable?	
Suitable	Available	Achievable	Constraints
Can constraints be overcome? In what timeframe?			
What is the recommended mix of units? Type/tenure?			
When is the site likely to be developed?			
0-5 years	6 - 10 years	11-15 years	15+ years
What will the build rate be?			
Existing local planning policy			

Are there any national policy restrictions?  <i>e.g national designations, conservation areas, listed building, environmental protection</i>
Are there any physical problems on site which would affect residential development?  <i>e.g topography, contamination, pollution, access, infrastructure, rivers</i>
Would residential development have an impact on the surrounding area?  <i>e.g. on neighbouring uses, landscape, character, conservation area, listed buildings etc</i>
What is the environment like around the site?  <i>e.g would the surrounding area/uses have a detrimental impact on a residential environment</i>
Constraints - are there any issues that would prevent residential use?
Are there likely to be any impacts on the viability of development in relation to the following;
Market factors  <i>Would development be viable? Would units sell? Is there sufficient market in this location, would type of unit be restricted?</i>
Cost factors  <i>would there be any costs such as affordable housing, Section 106, normal or abnormal costs which would affect viability?</i>
Delivery factors  <i>is delivery on site realistic? Would the development be phased? What would the build out rate be?</i>
Is the landowner of the site known?
Are there any existing leases/ownership issues/multiple land owners?
Is there intention to develop or sell the site?
When?                      0-5 years                      6-10 years                      11-15 years                      15+ years
Are there any planning applications relating to residential use on the site?
What for?
What is the current use of the site/ are there any existing buildings?
What was the previous use of the site
What uses surround the site, what is the character of the area?
