## Financial Statements Audit

### 2021/22

In November 2022, we reported our preliminary findings to the Audit Committee and set out the areas of work in progress. Since then, we have continued to work closely with the Authority's finance team and its property valuer to resolve outstanding queries on the valuations of plant, property and equipment (PPE) and investment properties. The property valuer has addressed some but not all our audit queries and therefore our work is still ongoing.

### 2022/23

We will begin our initial planning work for the 2022/23 audit at the end of February 2023.

Revisions to International Standards of Auditing 315 (which come into effect for audits of 2022/23 financial statements for the first time) mean that the extent of our work on risk assessment will increase significantly, particularly with regards to IT general controls and other controls relevant to the audit.

## Value for Money

Our work on the arrangements the Authority has in place to secure value for money for 2021/22 is currently in progress, and we anticipate finalising our Auditor's Annual Report by the end of March 2023.

This is in line with the National Audit Office's revised deadline, which requires the Auditor's Annual Report to be issued no more than three months after the date of the opinion on the financial statements.

## Certification of claims and returns

We certify the Authority's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DWP).

The certification work for the 2021/22 claim was completed in December and January 2023. Our report to DWP was submitted on 31 January 2023, ahead of the reporting deadline.

## Other areas

### Meetings

We met with Finance Officers in November as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

We also met with your Chief Executive in December to discuss the Authority's strategic priorities and plans.

### Events

We provide a range of workshops, along with network events for members and publications to support the Authority. Your officers have attended our Accounts Workshop in February 2023, where we highlighted financial reporting requirements for local authority accounts and gave insight into elements of the audit approach

Further details of the publications that may be of interest to the Authority are set out in our Sector Update section of this report.

## Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the period 2018/19 to 2021/22 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the "few improvements needed" (2A) rating means that additional audit work is required.

We have reviewed the impact of these changes on both the cost and timing of audits. We discuss audit fees with your s151 Officer, including any proposed variations to the Scale Fee set by PSAA Limited, and communicate our audit fees to the Audit Committee.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

# Audit Deliverables

2021/22 Deliverables	Planned Date	Status
<p><b>Audit Findings Report</b></p> <p>The Preliminary Audit Findings Report was presented to the Audit Committee in November.</p>	November 2022	Complete

# Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

# Audit Market Developments

## Financial Reporting Council Report On The Quality Of Local Audit

In late October 2022 the Financial Reporting Council (FRC) published its inspection findings into the quality of major local body audits in England, which includes large health and local government bodies.

The Quality Assurance Department (QAD) of the Institute of Chartered Accountants in England and Wales (ICAEW) inspects a sample of local audits that do not meet the definition of a 'major' local audit and the FRC's report also includes a summary of their findings.

The FRC reported that 71% of Grant Thornton audits inspected (7 in total) were assessed as either good or limited improvements required.

This is a pleasing result and reflects on our significant investment in audit quality over recent years. The positive direction of travel over the past five years is illustrated below:

### Our assessment of the quality of financial statement audits reviewed

The FRC also inspected our work on VfM arrangements at four bodies.

It is pleasing to note that all of these inspections were assessed as requiring no more than limited improvements (which is the same as the previous year).

As far as the ICAEW are concerned, overall, the audit work reviewed was found to be of a good standard.

Seven of the eight files reviewed (88%) were either 'good' or 'generally acceptable', but one file 'required improvement'.

The ICAEW identified one of our files as requiring 'Improvement' – but it should be noted that this was a 2019-20 file and therefore the learnings from prior years' review could not have been taken into account, an issue recognised by the ICAEW in their report to us.

The ICAEW found that our VfM work was good on each of the files reviewed, and they did not identify any issues with this aspect of the audit teams' work.

Whilst are pleased with our continuing improvement journey, we continue to invest in audit quality to ensure that the required standards are met.

The full report can be found [here](#).

# Grant Thornton – Nearly 60 councils at risk of ‘running out of money’ next year

Grant Thornton has warned that the soaring cost of living combined with a decade of austerity could see up to a sixth of English councils fully deplete their reserves in 2023-24 without substantial spending cuts.

Research found that, as a result of higher inflation, councils are expected to have a cumulative budget deficit of £7.3bn by 2025-26 – an increase of £4.6bn since forecasts made at the beginning of this year.

Grant Thornton said that although reserves were bolstered by more than £5bn in 2020-21 due to higher government funding, these balances will “continue to unwind through the long tail of Covid-19” with close to 60 councils forecast to use all earmarked and unallocated reserves next year.

Without additional income, authorities would need to make savings of over £125 per person by 2025-26, equal to the average yearly spend on homelessness, sports and leisure, parks and open spaces, libraries and waste services.

Phillip Woolley, Head of Public Services Consulting at Grant Thornton, said: “Local government has faced unprecedented demands and pressures over the last decade and without action from both central government and councils, in the face of these inflationary pressures, the list of authorities in need of exceptional support looks set to grow quickly.

“Our research shows the additional Covid-19 funding, while critical to support immediate challenges, has not addressed underlying systemic issues or the precariousness of councils’ financial sustainability in the face of economic instability.

“Local authorities are also now facing the risk of interest rate rises, increasing debt financing costs and the real risk of reduced funding from central government, in response to the current economic turmoil facing the country. Without committed intervention from all sides, there is a risk that the sector levels down instead of up.”

Grant Thornton estimated unitary authorities would have the largest budget gap (£1.8bn) by 2025-26, but district councils would have the largest gap compared to net spending at 10.2%.

The firm added that austerity and changing policy demands have left councils struggling to innovate in their services and prevented investment in finance and procurement, diminishing the sector’s ability to tackle medium-term challenges.

Grant Thornton said additional government funding alone will not lead to improvements, and that councils should focus on improving governance and developing financial stability plans.

Joanne Pitt, local government policy manager at CIPFA, said: “With no spending review and no fair funding review, CIPFA shares Grant Thornton’s concerns about the financial sustainability of some in the sector.

“While there are actions local authorities can take to strengthen their own financial resilience, they are facing significant inflationary pressures and rising demand which makes this hugely challenging for the sector.”

# Audit Committees: Practical Guidance For Local Authorities And Police – CIPFA

In October CIPFA published this guide, stating “This fully revised and updated edition takes into account recent legislative changes and professional developments and supports the 2022 CIPFA Position Statement. It includes additional guidance and resources to support audit committee members, and those working with and supporting the committee’s development.”

CIPFA go on to state “Audit committees are a key component of governance. Their purpose is to provide an independent and high-level focus on the adequacy of governance, risk and control arrangements. They play an important role in supporting leadership teams, elected representatives, police and crime commissioners and chief constables.

This edition updates CIPFA’s 2018 publication to complement the 2022 edition of the CIPFA Position Statement on audit committees.

The suite of publications has separate guidance resources for audit committee members in authorities, members of police audit committees, and a supplement for those responsible for guiding the committee.

New aspects include legislation changes in Wales and new expectations in England following the Redmond Review. All authorities and police bodies are encouraged to use the publication to review and develop their arrangements in accordance with the Position Statement.

The appendices include suggested terms of reference, a knowledge and skills framework and effectiveness improvement tools.”

The guide covers a number of key areas for Audit Committees, including:

- Purpose
- Core functions:
  - Governance, Risk and Control
  - Accountability and Public Reporting
  - Assurance and Audit arrangements
  - Ensuring focus
- Independence and accountability
- Membership and effectiveness

The guide can be purchased via the CIPFA website:
